

GUY GEAR GUIDE

The Fedora Hat was made popular in recent times by gangster rappers so is in style. Shoes are like beds – spend the most you can afford as it will be worth it. You'd be amazed how many women judge a guy by his shoes.

Single breasted suit jackets only! Some subtle accessories are good – a tie with some life (but no cartoons), cufflinks, a belt with some definition and a sharp pair of shoes. Shoes again!

Never a black suit ... unless you've come from your job as a lawyer or just attended a funeral. Flat-front, bootleg pants are the go and funky striped and patterned shirts are great.

Add some subtle colour – tie, shirt and possibly matching sunglasses. It's important to remember the more you have to drink the better everyone looks. Finally – shoes again.
